

# Click Mop System

Click Mop System with quick and easy magnetic attachment of the mop to the frame. Magnets position the mop accurately every time with one simple click.

Three handle options include: telescoping aluminum handle, GPS™ G7 16 oz. powder-coated aluminum handle, or GPS™ G7 25 oz. high capacity powder-coated aluminum handle with view tube. The heavy duty Click Mop Frame has no dirt collecting pockets or fastening surfaces. The Click Microfiber Mops have a heavy canvas backing that provides up to twice the number of washing cycles. Color code tabs on the mop can be used to minimize cross-contamination.

#4835 Click Dust Mop with Fringe 18". Dry/damp mop with a low cut pile construction, heavy canvas backing, color code tabs and 1" fringe. (12 per carton)

#4836 Click Damp Mop without Fringe 18". Dry/damp mop with a low cut pile construction, heavy canvas backing, color code tabs, without fringe. (12 per carton)

#4837 Click Chenille Wet Mop with a medium cut pile. Heavy canvas backing provides up to twice the number of washing cycles. Color code tabs and 5" x 18". (12 per carton)

#4838 Click Wet Mop with a low cut pile construction and scrub strips. Heavy canvas backing provides up to twice the number of washing cycles. Color code tabs and 5" x 18". (12 per carton)
