

CAT G7 Backpack Fluid Applicator

Designed for comfort and efficiency, our completely self-contained cleaning microfiber system is lightweight with an ergonomic backpack.

The Geerpres® CAT G7 Chemical Applicator Tool dispenses uncontaminated fluid for each new cleaning project. Use a little or a lot – you're in control. Place your pre-filled chemical bag into the backpack, connect the feeder hose and you are ready to apply your floor care product with the gentle squeeze of the top trigger. New Easy Flow Ball Valve improves flow by 20% – allows for adjustable flow rate.

- For proper cleaning of the CAT G7 use Geerpres® #4561 CAT G7 Clean Out Hose Fitting.
- New backpack design has a sturdier construction and breathable mesh inserts to help keep user cooler. It has adjustable chest, waist and padded shoulder straps to comfortably hold the backpack in place.
- Swivel trigger moves with natural movements of the operator, making it more ergonomic. Trigger function allows for continuous flow.
- Dual outlet dispenses fluid at a 90° angle to eliminate liquid collecting on the mop frame.
- 16" Cling-On Plastic Flat Mop Frame—Velcro®-Free. Velcro® is a registered trademark of The Velcro Company
- Refillable Chemical Bags have a 1.5-gallon capacity, are easy-to-fill and install and can be filled with virtually any non-acid floor care chemical.
- Also available with 22" Flat Mop Frames.
