

E-KEY® Innovative Locking System

FEATURES

- Easy keyless entry
- Cabinet automatically locks when door closes
- No broken locks and keys
- Able to retrofit on Shuttle Series® rounded-corner carts
- Patent #9741189
- Model #9972

The new, patent-pending E-Key® features a unique embedded magnetic device that increases efficiency with a keyless tap to unlock the housekeeping cart or Space Station® cart-top console and automatic locking upon door closure. The E-Key® eliminates lock/key breakage and related replacement costs.

The Shuttle Series® are stainless steel or powder-coated housekeeping carts, newly redesigned with more style and functionality. The Geerpres® core product line includes the most durable housekeeping carts and a custom cart program, tailored for specific Jan-San needs and many types of facilities and environments. A 10-year warranty is standard on all Geerpres® carts.
