WHY GEERPRES® AND VIRTUAL MANAGER FOR YOUR HOSPITAL OR FACILITY?

- Helps increase HCAHPS scores and decrease HAIs
- Increases employee productivity and accountability
- Customers report savings of 12% in labor productivity
- Provides access to data and analytics
- Manage workloads
- Ensures best practice methods
- Promotes a safer environment

Geerpres® EVS carts are uniquely designed for the changing standards of healthcare and critical environment cleaning. In addition to the Virtual Manager software, all carts are equipped to transport and house Advantex® cleaning products like single-use mops, wipes and the Advantex® G8 Microfiber Application System. The entire Advantex® product line is systematically designed for all healthcare/clinical, terminal, cleanroom, and food service applications.

PROFESSIONAL CLEANING SOLUTIONS

Creating value and efficiency is at the heart of a comprehensive approach to solutions for the healthcare and cleaning industry. The Geerpres® system includes quality, warranted products, hardware and advanced supplies now paired with Virtual Manager, the leading EVS software management program.

The result: EVS teams and patients will benefit by lowering operating costs, improving HCAHPS scores, and eliminating HAIs.

Geerpres® has a history of providing innovative cleaning products and supplies. Our high-quality, stainless steel cleaning products offer superior antimicrobial properties required in the healthcare environment. In business for over 80 years, Geerpres® EVS carts, steel wringers, and seamless buckets have been the industry standard in environmental services including hospitals, cleanroom/critical environment, food service, education, military and more. Today, Geerpres® has expanded to include patented self-dispensing microfiber applicators, disposable mops and wipes that virtually eliminate cross-contamination concerns, and a durable powder-coated EVS cart line.

Remotely manage workforce and task completion across multiple locations.
