

# ADVANTEX®

## G8 Microfiber Applicator System

The Advantex® G8's revolutionary, large-capacity removable tank makes refilling easy. The dual outlet dispenses to provide uniform application and flow control.

### ADVANTEX® SINGLE-USE MICROFIBER MOP

Works with the Advantex® G8 Microfiber Applicator System. Helps eliminate the risk of cross-contamination.

### Advantex® G8 Features

- Unique to Geerpres® - 32 oz. refill bottle stacks on EVS carts
- Ergonomic swivel trigger
- Continuous flow when the trigger is depressed
- Dual outlet dispenses fluid at a 90° angle
- 16" Advantex® Mop Frame is designed with micro hook and loop fastening to avoid lint accumulation
- Patent pending

### Advantex® Single-use Mop Features

- Proprietary synthetic construction compatible with all healthcare disinfectants, including quats, chlorine and peroxides
- Manufactured in an ISO 6/1000 cleanroom
- Non-linting, USP 797 compliant
- Superior option to eliminate cross-contamination risks for critical area cleaning
- Covers 250 sq. ft. per mop
- Best-in-class solution volume delivery with the least waste of any similar product (supporting data available upon request)
- Microfiber performance with effective, consistent bioburden/bacteria removal (3-4 log)
- Efficient cleaning impact in comparison to laundered mops
