- NEW Modular Multi-Bucket Mopping Systems
Creating value and efficiency is at the heart of a comprehensive approach to solutions for the healthcare and cleaning industry. The Geerpres® system includes quality, warranted products, hardware and advanced supplies paired with a leading EVS software management program. The result: EVS teams and patients will benefit by lowering operating costs, improving HCAHPS scores, and eliminating HAIs.

Geerpres® has a history of providing innovative cleaning products and supplies. Our high-quality, stainless steel cleaning products offer superior antimicrobial properties required in the healthcare environment. In business for over 80 years, Geerpres® EVS carts, steel wringers, and seamless buckets have been the industry standard in environmental services including hospitals, cleanroom/critical environment, food service, education, military and more. Today, Geerpres® has expanded to include patented self-dispensing microfiber applicators, disposable mops and wipes that virtually eliminate cross-contamination concerns, and a durable powder-coated EVS cart line.

Geerpres® offers a unique EVS personnel and workflow management software package, which provides real-time visibility on team member location, workload status/instructions, audit/compliance records and reporting tools.

This entire package facilitates productivity, short-term ROI, and operational excellence amidst continuously restricted budgets.

Metal Products Are Eco-Friendly
Steel is the world’s most recycled material. The majority of our products are manufactured primarily with stainless steel, steel or aluminum and are 100% recyclable and environmentally sustainable.

Reducing Chemical Usage with Microfiber
Geerpres® is committed to the supply and distribution of microfiber cleaning products. Microfiber is a Green Cleaning technology. The use of single-use microfiber reduces the amount of chemicals used in the cleaning process and reduces environmental impact as compared to laundered microfiber products.

Environmentally-Sustainable Packaging
Once complete, our products are packaged in biodegradable cartons and our adhesives are free from toxins.

Reducing Fuel Consumption and Pollution
We confine our operations largely to assembly and partner with local/regional suppliers to help reduce the environmental impact resulting from transportation. Geerpres®, since its inception, continues to be environmentally sensitive on a daily basis in all of our activities.

1 2005 according to the Steel Recycling Institute. The Steel Recycling Institute is an industry association that works to promote and sustain the recycling of all steel products.

LIFETIME WARRANTY
For the lifetime of any Stainless Steel or Powder-coated Enterprise® EVS Cart, Geerpres® warrants materials and workmanship to the original purchaser. Geerpres® will provide, at their sole discretion, repair or replacement of the product or components thereof, providing specified Care and Maintenance procedures are followed. Products covered under this warranty are:
- Enterprise® EVS Carts: Stainless Steel
- Enterprise® EVS Carts: Powder-coated
- Casino “Slot” Cart

This Lifetime Warranty does not include the Project Trolley or Escort® Powder-coated carts and excludes shipping and handling charges, abuse or neglect by the user(s), and any standard wear items such as bags, casters, locks/keys, etc.

10-YEAR LIMITED WARRANTY
For a period of 10 years from the date of purchase, if any Stainless Steel Buckets or Wringers proves defective in materials and/or workmanship during normal use by the original purchaser, Geerpres® will provide, at their sole discretion, repair or replacement of the product or components thereof, providing all care and maintenance procedures have been followed and the product has not been abused. Products covered under this limited warranty are:
- Buckets: Stainless Steel
- Wringers: Stainless Steel
- Project Trolley
- Orion Stainless Steel Cart

This limited warranty excludes shipping and handling charges.

5-YEAR LIMITED WARRANTY
For a period of 5 years from the date of purchase, if any zinc-plated or galvanized wringers proves defective in materials and/or workmanship during normal use by the original purchaser, Geerpres® will provide, at their sole discretion, repair or replacement of the product or components thereof, providing all care and maintenance procedures have been followed and the product has not been abused. Products covered under this limited warranty are:
- Wringers: Zinc-plated
- Buckets: Galvanized

This limited warranty excludes shipping and handling charges.

ADVANTEX® ADVANTAGE

Our entire Advantex® product line is systematically designed for all healthcare/clinical, terminal, cleanroom, and food service applications.

ADVANTEX® SINGLE-USE MICROFIBER MOP
100% synthetic microfiber helps eliminate cross-contamination and HAIs, locks and lifts bioburden, dirt and pathogens away. The Geerpres® Advantex® Mop is proven best-in-class with solution application, coverage and disinfectant compatibility. Patent pending.

NEW ADVANTEX® G8 MICROFIBER APPLICATOR SYSTEM
See page 16 for full product details.

ADVANTEX® SINGLE-USE STRING MOP
Absorbs 10 times its weight in fluids. Available in 8 oz. or 12 oz.

NEW ADVANTEX® SINGLE-USE MICROFIBER WIPE
Achieve ideal surface disinfection with the newest Advantex® Wipe, constructed of 48 GSM hydroentangled, synthetic microfibers. Compatible with all disinfectant solutions, the wipes are durable and have tremendous absorbency and release. Available in 12”x12” Flat Wipes or 12”x12” 1/4 Folded Wipes in Convenient Packages.

ISO-CLEAN SS ISOLATOR CLEANING TOOL AND ADVANTEX® SINGLE-USE ISOLATOR POCKET MOP
The Isolator Cleaning Tool is designed to effectively and easily clean isolation chambers. Match with the Advantex® Isolator Pocket Mop.

MODULAR CLEANING SYSTEMS

**ADVANTEX® HIGH DUSTER SOLUTIONS**

High Duster Tool and Advantex® High Duster Sleeves

Telescoping aluminum high duster tool for reaching high places. 55” handle easily extends up to 92”. Microfiber High Duster Tool Kit includes handle, high duster frame, and microfiber sleeve.

- **MODEL #100113**
  - High Duster Tool Kit (55”-92”)
  - Telescoping handle and high duster frame with quick connect
- **MODEL #48151**
  - Advantex® Single-use High Duster Sleeve
  - Sleeve ensures that dust, lint and smaller particles will catch with ease (250 per case)
- **MODEL #100114**
  - Telescoping Aluminum Handle (55”-92”)
  - High Duster Frame Attachment

**QUICK-MATE® & WALL-MATE®**

Wall Washing Systems

**STANDARD FEATURES:**

- Cleans all kinds of floors and walls while eliminating drips and the need for tarps, ladders and bulky equipment.
- Lightweight aluminum telescoping handles reach hard-to-clean areas.
- Collapsed size: 55” — Extended size: 92”.
- Polyurethane foam drip arrestor prevents drips and chemical runoff.

- **Quick-Mate® Advantex® Floor Kit**
  - MODEL #5018410
  - Includes extendable handle, head frame, one floor wash sponge mop, and one polyurethane foam drip arrestor.
- **Quick-Mate® Kit**
  - KIT MODEL #5018/MOP MODEL #9503
  - Includes wall wash handle, hook and loop head frame, one wall wash mop, and one polyurethane foam drip arrestor.
- **Wall-Mate® Kit**
  - KIT MODEL #5017/MOP MODEL #9502
  - Includes wall wash handle, tie-on wire head frame, one wall wash mop, and one polyurethane foam drip arrestor.
- **Quick-Mate® Kit 18” with Cling-On® Plastic Flat Mop Frame**
  - MODEL #5019
  - Includes wall wash handle, 16” Cling-On® Plastic Flat Mop Frame, one wall wash mop (18”), and one polyurethane foam drip arrestor.
THE FLOOR COULD BE THE WEAKEST LINK IN FIGHTING HAIs

Pathogens are consistently introduced to the floor throughout the day by shoes, transport equipment such as wheelchairs and beds, treatment devices or computer carts, and non-slip patient socks that traverse the floors and frequently, directly into a bed. More importantly, there is a consistent potential for cross-contamination on the floor by an item expected to be clean and often handled without gloves, a freshly laundered mop.

Financial Impact

It was estimated in 2002 that 1.737 million HAIs occurred in hospitals in the United States that year resulting in 98,987 deaths, a rate of 5.8%.

There were 39 million patient stays in hospitals during 2009.

- Average HAI cost of $1,024 per admission.
- Average HAI remedial cost per infected patient is $23,735.
- Total HAI cost of $40.3 billion, represents 11% of total hospital spend in 2009.

To reduce HAI risk, hospitals should convert to single-use microfiber mops. This study evaluated Advantex® (Brand A) and several brands of single-use microfiber mops and determined that differences vividly exist between brands on several critical criteria such as disinfectant neutralization, absorbency and dispersion/release efficacy, floor coverage, and wasted chemical solution.

ENVIRONMENTAL LIFE-CYCLE ANALYSIS

SINGLE-USE AND REUSABLE MOPS LIFE-CYCLE COMPARISON

Richard Venditti, Elis and Signe Olsson Professor, Department of Forest Biomaterials, North Carolina State University, Room 1204 Pulp and Paper Labs, Raleigh, NC 27695-8005

This report summarizes the findings of an environmental impact analysis of two types of mops, the Advantex® Single-use Microfiber Mop (disposable) and a reusable microfiber mop. Each type of mop was evaluated for 100 uses. The Advantex® Single-use Mop included 100 mops that were each used one time and then disposed of after being transported 20 miles to an incineration facility. The reusable mop system was used one time for each application, followed by a washing and disinfection step, followed by drying. The reusable mop was used, cleaned, dried, and transported 20 miles to an incineration facility. Cleaning of the reusable mop included the use of a washing machine and both detergent and bleach.

For the Advantex® Single-use Mop, it was assumed that 93% of the chemistry was delivered to the floor. The reusable mop was assumed that 40% of the chemistry was delivered to the floor.

The life-cycle inventory (LCI) chart tabulates all the environmentally-relevant mass and energy streams included in the study. The key difference is that the raw materials for the Advantex® Single-use Mop are much higher than the reusable mop since 100 single-use mops are used. This also translates into more waste for the single-use mops. The reusable mops, on the other hand, require a washing/drying step for reuse and as such use considerable water, chemicals, and energy.

The LCI results were input into an OpenLCA environmental life-cycle analysis software package that used the Environmental Protection Agency (EPA) TRACI model to calculate the environmental impact categories for each type of mop.

NOTE: The complete report, all data, tables and results are available upon request.

SUMMARY & RESULTS

The Advantex® Single-use Mop has a significantly lower environmental impact than a reusable laundered mop in every category assessed in the EPA TRACI model. A contribution analysis on the global warming potential of the two indicates that the electrical power and chemistry needed to wash and dry the reusable mop dominates environmental adverse implications.
ENTERPRISE® EVS CART
MODULAR EVS CART SOLUTION

Introducing the modular Enterprise® EVS cart, ideally designed for the healthcare industry and configurable to suit various cleaning protocols. The Enterprise® is at the heart of a comprehensive approach to advanced cleaning solutions.

OUTCOMES:

- Improve organization, appearance and productivity
- Reduce workers’ compensation claims
- Improve HCAHPS scores
- Helps eliminate HAIs and cross-contamination
STANDARD FEATURES:

- Available in durable, corrosion-resistant stainless steel or powder-coated finishes
  - Lifetime warranty on all EVS cart models
- 6.2 cubic feet of lockable cabinet storage space
  - Two adjustable interior shelves
- Three front tray options for various mop and bucket configurations:
  6” standard base, 12” or 18” flip-up trays with secure locking for reduced storage space
- Non-marking bumpers
- 5” quiet casters - 2 fixed rear and 2-4 front swivel
- Unbreakable Geer-Key® locking system
- Magnetically secured door to assure closure in transit
- 25-gallon waste bag with C-zipper and multiple pockets
- Multiple Gripit® bars, with three tool/handle holders and three hooks
- Repositioning handle adapts for varying configurations
- Cabinet mount double sign holder
- Glove box holder
- Trash lid

STANDARD CART DIMENSIONS:
39.25”H x 24.5”W x 37.25”L

MODEL #3101-118-21-31-42-51
SS Enterprise® EVS Cart with Standard Bag, 18” Flip-up Tray, Trash Lid with Tablet Holder, and Optional Space Station®

Check out the Enterprise® HOT video. geerpres.com
CART OPTIONS & ACCESSORIES:

1. Our new Space Station® Cart-top Locking Console allows for chemicals to be stored on top of the cart and locked securely when the cart is unattended. In addition, it allows for “visible organization” of all products to assure that the cart is correctly stocked and organized carts.
   MODEL #3885

2. Our powder-coated tablet holder is compatible with both mobile devices and tablets. Pair with the Geer-Key® Locking System for additional security.
   MODEL #380036

3. Our E-Key® Locking System. The cabinet locks when the door closes. This keyless entry system provides both security and efficiency.
   MODEL #9972  Patent #9741189

4. Powder-coated glove box hangs on the inside or outside of the door.
   MODEL #380037

5. Gripit® Tool Holders / Hooks
   MODEL #5045 / #5051

6. Dry Dock Two-shelf Storage
   MODEL #10007

7. Microfiber Bag System
   MODEL #100112

8. Cabinet / Handle Mount Double Sign Holder
   MODEL #9916 / #9921

9. Sanitizer Bottle Holder
   MODEL #380038

10. Our powder-coated Wipe Cannister Holder is compatible with most large wipe cannisters. Advantex Wipes sold separately.
    MODEL #540200

MODEL #3101-118-21-31-42-51
Enterprise® EVS Cart with Standard Bag, 18” Flip-up Tray, Trash Lid with Tablet Holder, and Optional Space Station®
ESCORT® PC MAID’S CART

FEATURES:
- Features 4.8 cu. ft. interior storage space
- Powder-coated metal construction
- Heavy-duty 25-gallon single-zipper bag
- Front roller bumpers to protect walls and furniture

PROJECT TROLLEY / CASINO CART

PROJECT TROLLEY WITH FLIP-UP ACCESS RAMP

PROJECT TROLLEY STANDARD FEATURES:
- 5" double-bearing, quiet casters (two swivel and two swivel with brake) make cart easy to maneuver and reduce noise
- Stainless steel construction for strength and durability
- 6.2 cu. ft. lockable storage cabinet keeps chemicals secure
- Increased productivity due to large capacity — fits everything needed for a shift and eliminates multiple trips to storage closet
- 14 tool holders to safely secure mop handles, dust mops, brooms and more
- High-quality, non-marking corner bumpers
- Access ramp has anti-slip strips and flips up for moving and storing of cart
- Heavy duty tool holder for larger equipment
- Patent pending

CASINO “SLOT” CART

STANDARD FEATURES:
- Black powder-coated steel construction is durable and corrosion resistant
- 7.0 cu. ft. cabinet with trash can drop-top designed to conceal rectangular trash can* (30"H x 11"W x 21"L)
- Slide-out ash collection holder
- Narrow design and only weighs 64 pds.
- Trash can separator allowing collection of recyclable materials and waste in one trash can using two bags
- Magnetic door to assure door remains closed in transit
- Inside door built-in powder-coated cleaning supply caddy
- 5" hard casters (two swivel and two fixed) for smooth transport
- Comfort height stainless steel handle
- Non-marking corner bumpers to protect walls
- Two Gripit® tool holders and two tool hooks to safely secure brooms and more

MODEL #3912

Geerpres® is an official partner with Virtual Manager, offering a comprehensive EVS (environmental services) software management program. The Virtual Manager Healthclean Software provides real-time insight to improve labor efficiencies and EVS outcomes. Geerpres® EVS carts can be fitted to hold tablets equipped with the software, linking employees and supervisors.

**WHAT CAN VIRTUAL MANAGER DO FOR YOUR COMPANY?**
- Helps increase HCAHPS scores and decrease HAIs
- Increases employee productivity and accountability
- Customers report savings of 12% in labor productivity
- Provides access to data and analytics
- Manage workloads
- Ensures best practice methods
- Promotes a safer environment

**VIRTUAL MANAGER AND GEERPRES® CARTS**
Paired with Geerpres® EVS carts, EVS managers and front-line employees now have the best physical and online tools to clean productively, safely and efficiently. Geerpres® EVS carts can be fitted to hold mobile devices and tablets equipped with the software, linking employees and supervisors. Mobile devices and tablets are compatible with the Geer-Key® Locking System.

**BENEFITS OF VIRTUAL MANAGER’S HEALTHCLEAN SOFTWARE**
- Increase quality and cleanliness of facility
- Immediate two-way communication between supervisors and employees
- Proof of quality tool, acknowledges extra efforts of employee
- Online/critical information keeps employee empowered, better managed
- Reduces the need for direct supervision
- Assists supervisor productivity by reduction of paperwork, lost time
- Improved reporting and documentation of incidents, delays or changes in assignments
- Built-in e-learning component
SAM 400®

In the battle to make healthcare and hospital environments safer and cleaner, Geerpres® is partnering with Scientific Air Management, offering the SAM 400® Portable Air Disinfection Device.

**SAM 400® FEATURES**

- High-volume 400 CFM fan operation performs complete air change within 2-10 minutes in a typical room size of 10’x10’x8’ (800 cubic feet)
- Powerful and quiet brushless high-speed motor disinfects 400 cubic feet per minute of air volume (42 decibels at average operating speeds)
- High-capacity SAM HEPA® pre-filter cartridge captures particulates down to 0.3 microns
- Large-volume UV-C induction chamber for full process of pathogen-laden air, killing germs less than 0.3 microns in size
- 360-degree total air intake system creates a quiet, undetectable whole-room air induction vortex
- Patented carbon substrate for complete odor and VOC removal
- Creates zero airflow disturbance, no temperature or humidity variations, and no negative or positive air pressure interference
- Premium hospital wheel casters for effortless mobility on all surfaces with toe touch locking wheels
- 110-120 voltage standard outlet with the same power requirements as a typical residential ceiling fan
- Zero ozone production
- Lightweight (62 lbs.) with aluminum balanced security base for superb stability and safety
- On-Board Digital screen reporting
- HEPA® Filter/Air Flow integrity metering
- UC-V Light integrity/intensity metering
- Carbon Final Filtration metering
- Pathogen and Particulate Air Volume process metering
- Filter replacements available with simple and economical annual self service

**DIMENSIONS**

62 lbs. 22”W x 37”H

**BENEFITS OF SAM 400®**

- Tested under strict EPA guidelines — provides certified whole-room air disinfection in minutes
- Helps reduce HAIs with a verified 99.9995% UV-C airborne pathogen killing rate for viruses — eliminating bacteria, mold, odor and VOCs
- Reduces airborne particulates by 99.97%
- Quiet 24/7 UV-C air scrubbing — 100% safe for patients and staff

In minutes, the SAM 400® uses a patented UV-C technology, processing large amounts of fast-moving air (400 CFM) to kill pathogens, reduce particulates, and remove odor and VOCs in a standard 10’x10’x 8’ (800 cubic feet) room.

The SAM 400® is hospital proven with nationally recognized facilities such as NYU Medical Center, University of Rochester, Federal VA Hospitals, NY Health + Hospitals, and Baptist Health Systems using the device in their Intensive Care Units, Operating Rooms, Patient Rooms, Compounding Pharmacies, Labs, Morgues, Food-Service, Waiting Areas, and more.
COLLECTION CARTS

LINEN HAMPER
STANDARD FEATURES:
- Tubular steel construction for superior resilience and cleaning simplicity
- Silent soft close to improve HCAHPS scores
- Unbreakable steel lid with multi-lingual labels
- Professional, clean powder-coated finish
- Heavy-duty nylon pouch to retain liner(s)
- Locking front casters
- Protective measures to reduce wall damage
- Heavy-duty nylon curtain (available option)
- Designed to prevent an overfilled liner
- Narrower profile as it sits against a wall
- Optional hamper curtain available with or without custom logo
- Optional connectors to link multiple units together
- Patent pending

COLLECTOR CART
STANDARD FEATURES:
- Folding chrome-plated steel frame folds and locks to minimal size for storage
- Large 50-gallon bag
- 3” wheels—non-marking, easy-to-maneuver, and maintenance-free
- Optional heavy-load bottom shelf for added support helps extend the life of the bag

COLLECTOR CART XL
STANDARD FEATURES:
- Manage and segregate large volumes of laundry, recyclable and/or waste
- Large 50-gallon bag and two 30-gallon bags
- Compacts for easy storage

**Lauderable Microfiber Cloths**

Model #5016
11” x 11” laminated sponge between two layers of microfiber (12 per ctn.)

**Carry Mate® Cleaning Supply Caddy**

- Lightweight cleaning companion made of durable, corrosion-proof plastic.
- Rigid pockets more durable than fabric.
- May be hung on a variety of waste containers and carts.

**Lamb’s Wool Duster**

- 100% virgin lamb’s wool—finds dust other dusters miss with just a single pass.
- Duster head conforms to almost any irregular surface.
- Soft, washable wool pile holds dust until shaken out—will not streak or scratch.
- Handle is break-resistant and corrosion-proof.
- Telescopic handle.
NEW ADVANTEX® G8 MICROFIBER APPLICATOR SYSTEM

The Advantex® G8’s revolutionary, large-capacity removable tank makes refilling easy. The dual outlet provides uniform application and flow control.

ADVANTEX® G8 FEATURES
- Ergonomic swivel trigger
- Unique to Geerpres® - 32 oz. refill bottle stacks on EVS carts
- Continuous flow when the trigger is depressed
- Dual outlet dispenses fluid at a 90° angle
- 16” Advantex® Mop Frame is designed with micro hook and loop fastening to avoid lint accumulation
- Patent pending

ADVANTEX® Single-use Microfiber Mop works with the Advantex® G8 Microfiber Applicator System

See page 4 for full product details.

MOP MODEL #200020

Patent pending
ADVANTEX® MOP FRAME
The 16" Advantex® Mop Frame makes it easy to convert your 12" and 24" flat mopping systems.

This frame utilizes micro hook and loop fastening. Ideally paired with the Advantex® Single-use Microfiber Mop. No replacement parts. Patent pending.

MODEL #4713
Advantex® Mop Frame for use with 18" x 5" Advantex® Single-use Microfiber Mop

CLING-ON® REVOLUTIONARY FLAT MOP FRAMES
The revolutionary, new 16" Cling-On® Plastic Flat Mop Frame with Quick Connector easily converts your current mopping system.

The mop frame has molded-in spikes – the mop clings to the frame (no hook and loop strips) – and holds your launderable mop firmly in place. Addresses ongoing nuisance issue of having to replace Velcro® strips. Also compatible with the Advantex® G8 Microfiber Applicator system. Patent #9572472

MICROFIBER MOPS
See website for all launderable mop options.

CAT G7 – BACKPACK
FLUID APPLICATOR
Designed for efficiency, our completely self-contained cleaning microfiber system is lightweight with an ergonomic backpack.

STANDARD FEATURES:
• New backpack design has a sturdy construction and breathable mesh inserts to help keep the user cool. It has an adjustable chest, waist and padded shoulder straps to comfortably hold the backpack in place.
• Lightweight powder-coated aluminum handle (custom color options available).
• Swivel trigger moves with natural movements of the operator, making it more ergonomic. Trigger function allows for continuous flow.
• Dual outlet dispenses fluid at a 90° angle to eliminate liquid collecting on the mop frame.
• Refillable Chemical Bags have a 1.5-gallon capacity, are easy-to-fill and install, and can be filled with virtually any non-acid floor care chemical.
• New Easy Flow Ball Valve improves flow by 20% and allows for adjustable flow rate.

STANDARD KIT INCLUDES:
56-½ Powder-coated Aluminum Handle Assembly, Flat Mop Frame, 7’ Chemical Feeder Hose with Cap and Connector, Backpack, Refillable Chemical Bag (1.5-gallon capacity), and Premium Microfiber Finish Mop

DOWNPRESS WRINGER

We have been perfecting downpress wringers since they were invented, which is why our wringers are still the industry leaders today.

STAINLESS STEEL Downpress Wringer

STANDARD FEATURES:

- Stainless steel with electropolished finish only offered by Geerpres®
- Made from Type 304 stainless steel to resist abrading, rusting, discoloring or staining in normal use
- Electropolishing provides superior corrosion resistance and makes the surface very smooth—so bacteria and foreign particles do not adhere
- Downpress action wrings mops up to three times faster than conventional wringers to boost productivity and reduce costs
- Available with a flat band for use on half-round buckets
- Cleanroom-specific stainless steel wringers are fully autoclavable
- Solid gear shaft for unmatched durability
- Double-staggered gears for slip-proof operation
- Long-wearing bushings where the gear shaft enters the side plates

UNION

STANDARD FEATURES:
- Only offered by Geerpres®
- Simple, one-stroke operation wrings mops up to three times faster than other designs
- Solid steel gear shaft for unmatched durability
- Double-staggered metal gears for solid, slip-proof operation
- Long-wearing steel bushings where the gear shaft enters the side plates
- Welded and riveted construction, PLUS zinc electroplating, makes these wringers as long-lasting as they are effective

MODEL #1015
Floor-Knight Wringer®

ULTRA® PLASTIC
Downpress Wringer

STANDARD FEATURES:
- 25% lighter and less bulky than other plastic wringers
- Constructed of nylon reinforced with fiberglass to provide added strength
- Basket capacity handles large 32 oz. mops
- Solid steel gear shaft
- Smooth, hard surface offers superior resistance to staining and abrasion
- Unmatched operating efficiency

MODEL #1420
Ultra® Plastic Downpress Wringer - Gray

Pair Ultra® Plastic Downpress Wringer with either a 26 quart or 35 quart Champ® Plastic Bucket

SEAWAY®
Zinc - plated Sidepress Wringer

STANDARD FEATURES:
- Easy top-to-bottom squeezing action forces water from the mop down into the bucket, minimizing overflow
- Solid steel main shaft
- Accommodates virtually all popular string mop sizes (12 – 32 oz.)
- Can be used on a wide variety of buckets, including plastic models
- Reinforced steel bottom band for stable operation and reduced bucket wear

** Mixing zinc-plated and galvanized products with stainless steel products will void the limited warranty due to a chance of galvanic reaction.**
**STAINLESS STEEL**

Round Bucket

**STANDARD FEATURES:**
- Rolled, open rims reinforce the bucket and prevent accumulation of dirt and bacteria
- Seamless construction keeps buckets leak-free and easy to sanitize
- Permanently-etched gradations included for easy, accurate mixing
- With proper care, these buckets can provide a lifetime of corrosion-free use
- Bail ears located below rims to allow easy placement of wringer

**GALVANIZED**

Round Bucket

**STANDARD FEATURES:**
- More usable capacity than oval buckets
- Hot-dip zinc galvanized after the bucket is formed for maximum strength
- Heavy wire reinforcement formed into top rim for added strength
- Perimeter-reinforcing rib indicates a one-gallon increment
- Models with 2” casters include high-density, reinforced nylon spiders attached without rivet or bolt holes

**SEAWAY® GALVANIZED**

Oval Bucket

**STANDARD FEATURES:**
- Oval design provides added mop clearance between wringer and bucket front
- Hot-dip zinc galvanized after fabrication to seal all seams and provide maximum corrosion resistance
- Reinforced bands and rolled rim add strength
- Permanently-etched gradations enable easy, accurate mixing
- Caster models feature rust-free nylon caster mounts with double-raceway, non-marking casters

**WARRANTY**

Mixing zinc-plated and galvanized products with stainless steel products will void the limited warranty due to a chance of galvanic reaction.
STAINLESS STEEL
Half-Round Bucket

STANDARD FEATURES:
• 5-gallon buckets
• Tapered sides allow for nested, compact storage
• Safe, easy-lift bails
• Use with flat band mop wringers
• Fully autoclavable

MODEL #2250
1 set of 2 half-round 5-gallon buckets

Pairs with Flat Band Mop Wringers

FLAT MOP BUCKET
Stainless Steel with Lids and Sieve

STANDARD FEATURES:
• Available in 2-bucket and 3-bucket systems (includes buckets w/lids and 1 sieve)
• Offered in an electropolished finish
• Handles allow for easy lifting
• Stainless steel sieve ensures the correct amount of disinfectant reaches the floor
• Buckets nest for easy shipping and storage
• Fully autoclavable

MODEL #2648-3
Three-bucket System

MODEL #2648
Two-bucket System

CHAMP®
Plastic Bucket

STANDARD FEATURES:
• Made from foam polymer that will withstand years of continuous wringing action
• Single-bail design virtually eliminates bail pull-out and pinched hands
• Built-in bumper keeps bail and casters from damaging walls
• Double-raceway, ball-bearing casters add stability and maneuverability
• Unique double-wall design keeps bucket sides smooth and free of protruding supports
