Cleanroom/Critical Environment Products

Stainless Steel Wringers

The Geerpres® Stainless Steel Downpress Wringer is the only electropolished option, creating a smooth surface so bacteria and particulate cannot attach.

Standard Features

- Made from Type 304 electropolished stainless steel to resist abrading, rusting, discoloring or staining in normal use
- Downpress action wrings mops up to three times faster than conventional wringers to boost productivity and reduce costs
- Wringer is autoclavable
- For 16-24 oz. mops

Please see our complete line of wringers at geerpres.com

Stainless Steel Buckets

All Geerpres® stainless steel buckets are made from Type 304 stainless steel and have rolled, open rims that reinforce the bucket and prevent accumulation of dirt and bacteria.

Standard Features

- Seamless construction keeps buckets leak-free and easy to sanitize
- Bail ears are positioned below rims to avoid interference with wringer placement
- 3" stainless steel (greaseless) casters allow ease of movement as well as sanitation
- With proper care and maintenance, these buckets can provide a lifetime of corrosion-free use and will retain their clean, attractive appearance
- Autoclavable
- Available in 5-, 8-, 11-gallon capacity with caster/bumper options

Please see our complete line of buckets at geerpres.com

Iso-Clean[®] Stainless Steel Isolator Cleaning Tool

Designed to easily fit into and clean isolation chambers. Handle is constructed of electropolished stainless steel and provides ease of use and protection from moisture, bacteria and corrosion.

Standard Features

- Specially designed handle is sealed at the end and welded where mop frame attaches
- Hook included at the end of the handle for hanging
- Easy to use locking device extension mechanism
- Handle extends 16" – 23"
- Fully autoclavable – meeting the strictest requirements
- Rectangular head frame with rounded corners to prevent equipment damage
