

Champ® Plastic Bucket & Ultra® Plastic Downpress Wringer

The Champ™ Plastic Buckets are made from foam polymer material that can easily withstand years of continuous wringer action.

The single-bail design virtually eliminates bail pull-out and pinched hands. Built-in bumper keeps bails and casters from damaging walls. Two-inch double-raceway ball-bearing casters add stability and maneuverability. Unique double-wall design keeps bucket sides smooth and free of protruding supports. Champ™ Plastic Buckets without bail are approved for high security/prison applications.

Revised 0522

Champ® Plastic Bucket FEATURES:

- Made from foam polymer that will withstand years of continuous wringing action
- Single-bail design virtually eliminates bail pull-out and pinched hands
- Unique double-wall design keeps bucket sides smooth and free of protruding supports
