

Procedure for Damp Mopping with Advantex® Single-use Mops

Purpose: This procedure will provide guidance on the proper method for going from charging to mopping. In addition to this procedure, always refer to your facility guidelines for **further information.**

Recommended Products:

- Personal Protective Equipment (PPE)
- Facility approved wet mopping system
- Facility approved charging bucket
- Disposable microfiber mops
- Maintex Action 256 or Neutral Cleaner

Procedure: (Post dry mop)

• **PREPARE**

Leave cleaning cart outside of rooms and away from traffic if possible.
Place Safety Signage as needed per facility guidelines

• **SELECT**

Select the proper handle for your ergonomic preference

• **OPEN**

Open charging bucket lid

• **REMOVE**

Fold top mop in quarters and transport to far corner of room to be cleaned. Place on floor logo facing up

a. **DO NOT WRING EXCESS SOLUTION FROM MOP**

• **MOP**

From the far corner of the room begin mopping in a “S” pattern while moving backwards toward the door.

a. Remember to keep the mop centered in your body and **DO NOT REACH**

• **REMOVE**

Gently remove soiled mop from frame when finished

• **DISPOSE**

Dispose of soiled mop per facility guidelines

• **DISINFECT**

Disinfect the equipment like the mop handle and frame before returning to continuing
