

# REDUCE YOUR ENVIRONMENTAL FOOTPRINT WITH ADVANTEX®

**THE ONLY SINGLE-USE MOP CONSTRUCTED OF 71% POST-CONSUMER RECYCLED MATERIALS**

Advantex® Mops help support your sustainability initiatives.

## ENVIRONMENTAL LIFE-CYCLE ANALYSIS SINGLE-USE VS REUSABLE LAUNDERED MOPS

### ADVANTEX® SINGLE-USE MOPS

**90% Less Electricity**

Repeat washing and drying process

**68% Less Chemical Use**

Eliminates laundry chemicals and reduces chemicals used for daily cleaning

**57% Less Resources (Fuel)**

Resources used and fuel consumption when transporting

**253 Less Gallons of Water**

Natural resource consumption

**84% Less Ozone Depletion**

Air pollution produced when transporting during laundering process (20x)

**100% Less Microplastics**

Plastic particles in the environment and water

The Advantex® Single-use Mop has a significantly lower environmental impact than a reusable laundered mop in every category assessed in the EPA TRACI model. A contribution analysis on the global warming potential of the two indicates that the electrical power and chemistry needed to wash and dry the reusable mop dominates environmental adverse implications.
