

CLEANING CHALLENGES: SOLVED

Passengers expect the highest cleanliness levels, challenging the facility managers of large, busy airports, railways, and bus stations. Ensuring a clean and well-maintained transportation hub reflects your commitment to public safety and community well-being. A knowledgeable and properly equipped custodial team can keep the constant high volume of visitors safe from harmful bacteria that build up on surfaces and prevent accidents that may occur from neglecting spills.

MAIN CHALLENGES:

- Floor Maintenance
- Restrooms & Trash Management
- Surface Cleaning
- Cleaning Carts

FLOOR MAINTENANCE

Facilities open to the public have a constant flow of visitors across miles of floors throughout the day. Keeping tiles clean can be demanding and requires quick spill clean-up, leaving surfaces dry and ready for traffic. Our bucket-less superior Advantex® mopping solution is ideal for high-traffic areas that require fast and efficient cleaning. Understanding the unique challenges helped us develop strategic cleaning products that improve cleaning results and efficiency to accommodate this continuous movement.

ADVANTEX G8 MICROFIBER APPLICATOR SYSTEM

No more buckets with our revolutionary, large-capacity removable tank that makes refilling easy. MODEL #200020

ADVANTEX SINGLE-USE FLOOR DUSTER

Designed to attract and hold dust and debris with the microfiber mop and looped fringe. MODEL #48330 / #48331 / #48332

ADVANTEX® SINGLE-USE MICROFIBER MOP

Exclusively offered by Geerpres® – Microfiber locks and lifts bioburden, dirt and contaminants away for efficient and effective cleaning. MODEL #4831

ADVANTEX SPILL MOP

Designed to absorb spills quickly using a flat mop handle without the mess of a bucket and wringer. Absorbs up to 32 oz. (large bubble tea or coffee size). MODEL #4830

RESTROOMS & TRASH MANAGEMENT

Spotless restrooms are vital, considering everybody uses the restroom before and after a flight/ride. The cleanliness of transportation hub restrooms impacts public perception, and well-maintained restrooms convey a sense of professionalism, efficiency, and commitment to public safety. Eliminating disgusting toilet brush bucket drips with our Advantex® Loo-Mop while protecting visitors by eliminating bacteria-contaminated cleaning tools spreading germs.

Trash collection is a high priority because high-traffic establishments generate large amounts of trash. Leaking trash liners creates a mess in the trash receptacles and the floor while transferring or transporting waste. These spills cause unsafe floors, emit odors, and reflect poorly on the facility.

ADVANTEX SUSTAINABLE DISPOSABLE LOO-MOP

Exclusively offered by Geerpres®. Improve cleaning cart cleanliness, eliminating toilet brush buckets, drips and spills. **MODEL #4855**

ADVANTEX® SPILL PAD

It is ideal for placement in waste receptacles or any collection container to absorb leaking and pooling liquids. **MODEL #4841**

SURFACE CLEANING

Transportation hubs have large public areas that experience high volumes of touch-and-go traffic. These surfaces include chairs, door handles, faucets, and many more. Germs (bacteria) can spread quickly and cause sickness; therefore, it's essential to disinfect these surfaces properly and frequently.

ADVANTEX® 1/4 FOLD SINGLE-USE NON-WOVEN MICROFIBER WIPES

Compatible with all disinfectant solutions, the wipes are durable and have tremendous absorbency and release in a single-use option. **MODEL #48424**

ADVANTEX MICROFIBER HAND DUSTER

The professional-grade microfiber grabs hold of bacteria, and dust. The robust duster head is very dense but easily fits in small spaces, and the extendable handle helps reach higher areas. **MODEL #48004G**

ADVANTEX® HIGH DUSTER TOOL KIT

The Advantex® High Duster Tool kit includes telescoping aluminum handle and flexible high duster frame with quick connect. Handle easily extends from 42" to 70". **MODEL #100113**

PROFESSIONAL CLEANING CARTS

To ensure the best impressions, you must prioritize cleaning high-traffic areas frequently. Our Escort® EVS cart keeps all the essential tools ready for efficient cleaning.

Some facility managers are turning to advanced machinery to help clean expansive floor areas. Our Project Trolley helps maintain a professional appearance while keeping all the essential equipment ready for efficient cleaning and floor maintenance. Customers are surprised with its ease of mobility and the fact that it fits in a standard elevator.

ESCORT® STAINLESS STEEL EVS CART

This stainless steel housekeeping cart maintains an attractive appearance and is easy to sanitize. This cart offers 4.8 cu. ft. interior storage space for all your cleaning essentials is at the heart of a comprehensive approach to advanced cleaning solutions. **MODEL #3646**

PROJECT TROLLEY

Utilize our professional looking equipment cart that is large enough to haul everything. Features 18-22-gauge Type 304 stainless steel construction, an optional lockable storage cabinet. **MODEL #3913 / #3912**
